

November 2008

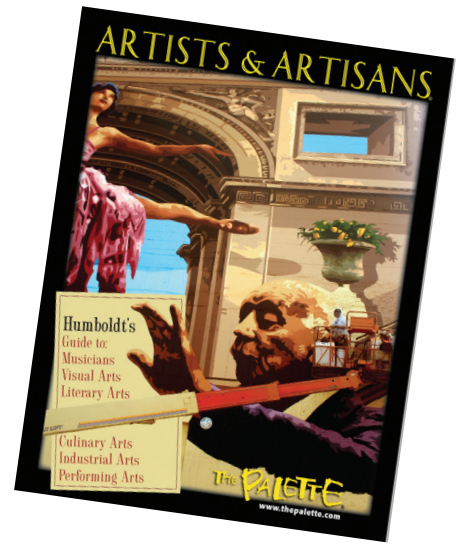

Calling All Musicians,

The Palette[®] magazine has become not only the most popular, but also the most useful year-round resource for all arts, culture, special events and businesses in Humboldt County. *The Palette*[®] is the only art and culture guide designed for use throughout the year. Its information can also be accessed online at www.thepalette.com.

We have marketed and produced *The Palette*[®] for the Humboldt Arts Council since its inception in 1992. We continue to publish the magazine to support the Humboldt Arts Council's efforts to promote the arts and culture of the region.

This 15th edition of The Palette will feature Humboldt County's traditional arts and entertainment venues, and includes feature articles on **dance, theater, music, the industrial arts** and other **cultural events**. It provides the most complete **calendar listing of fairs, showings and events in Humboldt County and the surrounding area**. Plus, all web links and e-mail addresses on the Internet will be **"Hot,"** taking the viewer directly to the website when hit.

Last year we expanded our Artist Profile listings with a separate section for musicians. The Profile listings are a venue for local artists and musicians to advertise their business and to have the opportunity to feature their own work in the magazine.

ARTIST PROFILES

Humboldt County's Music Scene

For more information about the Humboldt County music scene,
visit HumboldtMusic.com. Launched in 2000, this website is
a free resource for the Humboldt County music community. The
website provides a searchable directory of local musicians and
musicians resources, as well as a comprehensive listing of local music events. In
addition, the Humboldt Music Forum provides a public discussion
area for any music-related issues.

The calendar is free and local musicians are invited to
submit information into the calendar directory. The music community
can also post public events, announce CD releases, parties,
concerts, gigs, and other fun
activities for musicians around
the county. Local musicians
can benefit from
this resource.
